## ABOUT ME

---

I'm a full stack web developer, and I like to write code with a purpose. When not coding, you can find me walking in a park, playing guitar (or bass), playing some video game or chilling around in a nice pub.

## TAX CODE

---

**VSCFCR92M21C351N**

## WORK EXPERIENCE

---

[ 01/11/2019 – 31/01/2021 ] **Web Developer**

**SEO Tester Online**

**City:** Catania

**Country:** Italy

**Main activities and responsibilities:**

Bug-fixing tasks on e-commerce websites based on the Magento CMS.

Building the website for the parent company (Quarzio).

Building a test component for the STO Suite.

## EDUCATION AND TRAINING

---

[ 09/02/2022 – 16/09/2022 ] **Junior Full Stack Web Developer**

**Develhope** <https://www.develhope.co>

**Main subject / occupational skills covered:**

A 6(+1) months intensive course on full stack web development.

The first part covers the Git VCS, followed by the basics: HTML5, CSS3, JS ES6+.

The second part covers React and useful add-ons like React Router, Redux and SWR, plus TypeScript.

The third and final part covers Node.js and how to build a backend using Express, Prisma as the ORM and PostgreSQL as the chosen DBMS.

During the course, students are grouped into micro-teams where they build projects together, mimicking an AGILE/SCRUM workflow.

The course is accompanied by career and human development modules to prepare students to the professional life.

## COMMUNICATION AND INTERPERSONAL SKILLS

---

**Basic team leadership & communication**

While taking Develhope's full stack course, I found myself directing my micro-team two times in a row.

I pay extreme attention to the needs of my teammates, making sure they feel comfortable but without excessively prioritizing one's needs over the others. I firmly believe that a relaxed workspace is the key for increased productivity. My teammates are able to individuate and work on some aspects of the project (bugfixes, minor improvements) by themselves, but I always ensure that they respect the schedule and the provided ways to contribute.

Sometimes there's the need to make one of team up to date regarding a certain task. I take pride in the positive feedback about my capability to explain something in a way that's easily understandable, even though I'm aware that this is a skill that has to be maintained and improved over time.

## DIGITAL SKILLS

---

### My Digital Skills

Basic Knowledge of Office suites (MS, Google, LibreOffice) | Intermediate Knowledge of Operative Systems: Windows, Linux (Debian and RHEL based) | Amazon RDS | Vercel | Heroku | SQL -basic knowledge | NoSQL -basic knowledge
